PROJECTS

Assure You

🔗 https://assure-you-new.onrender.com/

- Developed "Assure You" e-commerce platform using MUI, React.js, Node.js, Express, and MongoDB.
- Created user-friendly interfaces for browsing, purchasing, and tracking products, enhancing user experience and boosting sales.
- Integrated secure payment gateways and implemented authentication mechanisms for data protection.
- Designed efficient order management system, enabling real-time order tracking and status updates for administrators.
- Utilized RESTful APIs for seamless frontend-backend communication and optimized website performance.
- Implemented responsive design principles to optimize website performance across devices, ensuring a seamless user experience and increased accessibility.

Flashcard Generator

🔗 https://flashcardgenerator.netlify.app/

- Utilizing Tailwind CSS, Redux, and React to create a dynamic and efficient study tool.
- Utilized Redux for state management, enabling efficient data flow and ensuring consistent application behavior across different components.
- Integrated React components to facilitate interactive user interactions, allowing users to easily navigate, create, and manage their flashcards.

Portfolio

🔗 https://portfolioofabhishek.vercel.app/

- Developed a dynamic and responsive portfolio website using React.js as the front-end framework, providing a modern and intuitive user experience.
- Integrated Bootstrap to streamline the UI development process, ensuring consistent styling and responsiveness across different devices and screen sizes.
- Leveraged React Router for client-side routing, enabling seamless navigation between different sections and pages of the portfolio.
